

### **End User License Agreement for Course and Assets**

**Course** means the course content including, but not limited to, the course videos, graphics and audio that the User enrolls in by paying a fee to the Store.

**Assets** means any digital assets (including but not limited to source code and images) which you can download from within the **Course**.

**Source Code** means the C# and Shader Graph source code included in the completed **Course** project that has been provided by the **Copyright Holder**.

**Videogame** means any video game that you are creating that is either being distributed for free or commercially sold.

**Store** means any store where you can enroll in the **Course** by paying a fee including, but not limited to, Udemy.

**User** means anyone who has enrolled in the **Course** from the **Store** and not claimed a refund.

**Copyright Holder** means Robin Ager the author and owner of the **Course**, **Assets** and **Source Code** intellectual property.

1. The use of the **Course** is governed by the **Store** terms and conditions that you agree to when you enroll in the **Course**. The **User** cannot reproduce the **Course** in whole or in part, distribute the **Course** for free, or sell the **Course** commercially. No rights in the **Course** are conferred to the **User** beyond using the **Course** according to the **Store** terms and conditions.
2. The **Course** and **Assets** are provided “as is”, without warranty of any kind, express or implied, including but not limited to the warranties of merchantability, fitness for a particular purpose and noninfringement. In no event shall the **Copyright Holder** be liable for any claim, damages or other liability, whether in an action of contract, tort or otherwise, arising from, out of or in connection with the **Course** and **Assets** or the use or other dealings in the **Course** and **Assets**.
3. The **Assets** are provided for use only within the **Course** and for the educational purposes of completing the **Course**. No rights in the **Assets** are conferred to the **User**.
4. The only exception to 3 above is the **User** is allowed to use the **Source Code** in a **Videogame** if it is substantially modified or added to. If the **User** uses the **Source Code** in a **Videogame** in this way, no attribution to the **Copyright Holder** needs to be made. For example, you cannot simply copy the entire code base and release it as your own work.
5. Under no circumstances should the **Assets** including the **Source Code** be distributed or sold directly, either individually or as a bundle.
6. The **Copyright Holder** retains all intellectual property in the **Course** and **Assets**, but the **User** obtains the above end user license relating to their use.
